

## Tentative Outline (Preliminary Proposal of Thematic Issue)

### Special/Thematic Issue for the journal: Current Pharmaceutical Design (CPD)

**Title of the Thematic Issue: Pharmacological advances in gynecology and obstetrics**

*Guest Editor's Name: Antonio Simone Laganà*

- **Scope of the Thematic Issue (Brief introduction / abstract explaining the Thematic Issue):**

The idea of this special issue titled "Pharmacological advances in gynecology and obstetrics" derives from the desire to create a collection of manuscripts providing new evidence or summarizing the most recent available pieces of evidence in the field. The special issue focuses on the drug design and delivery, as well as novel target therapy on gynaecological malignancies, male and female infertility, obstetric diseases, benign diseases, aiming to provide a collection able to become the starting point of new researches.

**Keywords: Pharmacology, Gynecology, Obstetrics, Cancers, Infertility, Immunology.**

#### Sub-topics:

The sub-topics to be covered within the issue should be provided:

- Gynaecological malignancies
- Male and female infertility
- Obstetric diseases
- Benign diseases in gynecology

#### Schedule:

- ✧ Deadline to submit the finalized proposal of Thematic issue: **3 months after subjected approval of preliminary proposal**
- ✧ Complete Thematic issue submission deadline: 30 June 2022
